ACE ENGINEERING COLLEGE

ONE-WEEK TECHNICAL PROJECT REPORT

Project Title: [TITLE OF THE PROJECT]

Submitted by: [Student Name(s)]

Roll Number(s): [Roll Number(s)]

Branch and Year: [Department, Year]

Academic Year: [Academic Year]

Project Duration: [Start Date] to [End Date] (7 Days)

Project Guide / Mentor: [Name and Designation]

Organization / Training Institute: [Name, if applicable]

Submitted to the Department of [Department Name]

REPORT PREPARATION GUIDELINES

- Use this template for a one-week technical project, vacation training, or short-term internship project.
- Replace all text in square brackets with the relevant information.
- Include only activities actually completed and results genuinely obtained.
- Add screenshots, photographs, diagrams, code extracts, circuit diagrams, CAD drawings, or experimental data as applicable.
- Suggested length: approximately 10–20 pages, depending on the project complexity.

TABLE OF CONTENTS

1. Certificate

2. Acknowledgement

3. Abstract

4. Introduction

5. Objectives of the Project

6. Problem Statement and Scope

7. Tools and Technologies Used

8. System Design / Methodology

9. Day-Wise Progress Report

10. Implementation and Results

11. Learning Outcomes

12. Challenges Faced and Solutions

13. Conclusion and Future Scope

14. References

15. Appendices / Supporting Evidence

16. Mentor Evaluation Sheet

1. CERTIFICATE (IF APPLICABLE)

This is to certify that [Student Name(s)], bearing Roll Number(s) [Roll Number(s)], of [Department and Year], has/have completed the one-week technical project entitled "[Project Title]" during [Start Date] to [End Date] at [Organization / Institution Name], under the guidance of [Mentor Name and Designation].

Signature of Project Mentor: _____

Signature of Department Project Guide: _____

Date: _____ Place: _____

2. ACKNOWLEDGEMENT

[Write a brief acknowledgement thanking the organization, project mentor, department, faculty guide, and others who supported the project.]

3. ABSTRACT

[Summarize the project in approximately 150–250 words. Mention the problem or topic, objectives, approach, tools used, key work completed, and main outcome.]

4. INTRODUCTION

[Introduce the technical domain and explain the background, relevance, and motivation for selecting the project.]

5. OBJECTIVES OF THE PROJECT

[State a clear, specific project objective.]

6. PROBLEM STATEMENT AND SCOPE

Problem statement: [Describe the problem addressed by the project.]

Scope: [Describe what is included and what is outside the project scope.]

7. TOOLS AND TECHNOLOGIES USED

Tool / Technology	Purpose	Version / Details
[Name]	[How it was used]	[Version / details]

8. SYSTEM DESIGN / METHODOLOGY

[Explain the project workflow and steps followed. Insert a flowchart, block diagram, system architecture, circuit diagram, design drawing, or experimental setup where relevant.]

Figure : [Caption for the diagram or image]

9. DAY-WISE PROGRESS REPORT

Day	Activities Performed	Deliverables / Outcomes
Day 1	Orientation, topic selection and requirement analysis	Objectives and requirements finalized
Day 2	Concept study, literature review and tool setup	Relevant concepts and tools identified
Day 3	System design and methodology	Design / flowchart prepared
Day 4	Development, coding or practical implementation	Initial module / practical work completed
Day 5	Integration, testing and debugging	Prototype / experiment tested
Day 6	Result analysis, corrections and documentation	Results recorded and reviewed
Day 7	Final demonstration, presentation and submission	Project completed and presented

Note: Modify the suggested activities to reflect the work actually performed during each day.

10. IMPLEMENTATION AND RESULTS

[Describe the modules developed, procedures followed, experiments conducted, testing performed, and results obtained. Add screenshots, output, observations, tables, or graphs as appropriate.]

Result / Observation : [Insert details]

11. LEARNING OUTCOMES

[Describe a technical skill, concept, or practical learning outcome.]

12. CHALLENGES FACED AND SOLUTIONS

Challenge	Action / Solution	Outcome
[Challenge encountered]	[Action taken]	[Result]

13. CONCLUSION AND FUTURE SCOPE

Conclusion: [Summarize the work completed and whether the objectives were achieved.]

Future scope: [Mention possible improvements, additional features, or further study.]

14. REFERENCES

[Author / Organization, title, publisher or website, year, URL and access date if applicable.]

15. APPENDICES / SUPPORTING EVIDENCE

[Attach or insert relevant photographs, participation certificate, attendance proof, screenshots, code extracts, drawings, test data, or other supporting material.]

16. MENTOR EVALUATION SHEET (SUGGESTED)

Student Name(s): _____

Project Title: _____

Mentor Name: _____

Evaluation Criterion	Maximum Marks	Marks Awarded
Understanding of problem and objectives	10	
Technical knowledge and methodology	20	
Implementation / practical work	25	
Results and analysis	15	
Report quality and documentation	15	
Presentation and viva-voce	15	
Total	**100**	

Mentor Remarks: _____

_____

Mentor Signature: _____ Date: _____

HoD SIGNATURE
